

LEE PRODUCTS COMPANY

2736 Lyndale Avenue South

Minneapolis 8, Minn.

Here is something new—a full size container of SORTKWIK, the modern pleasant replacement of rubber fingers and unsanitary sponges!

Won't you test it in your office on currency counting, check or card sorting, collating, mailing or wherever you have a paper handling job and see how it expedites the work. SORTKWIK is not harmful to the skin as it contains no harsh, gritty or injurious ingredients. It washes off readily. SORTKWIK is economical as this 50c container will last approximately four months.

Now widely used in a variety of businesses throughout the country, SORTKWIK is setting a new standard for efficient, speedy paper handling. We hope you will let it help your paper handling, too.

MRS. REYNOLD A. LEE

President

For Best Results ...

Apply **SORTKWIK** sparingly and rub well between fingers and thumb. to create a greaseless, stainless, tacky film which picks up papers easily.

If your stationer does not have SORTKWIK you may reorder direct from
